

ROW-SINGLE-FAMILY HOUSE IN WITTERSWIL 2009-2010

NEW BUILD

ROFH, 3 HOUSES
BURGUNDERSTRASSE 11 A,B,C
4108 WITTERSWIL

GENERAL CONTRACTOR
ORDER

The volumetry of terraced houses arises from the desire to make use of as large indoor and outdoor spaces as possible.

The attic floor conforms to a generous terrace in the inside space. The ground floor has recesses in the facade to give more room outdoors. The carports are added to the facade as if they were a part of the main volume. The colour uniformly covers all elements.
