

TREES 2012

ALFIO FRISINA
800X1200 mm
Photography,
under acrylic glass

Edition: 10

Tree I
Tree II
Tree III
Tree IV

The images „Trees“ show us the personal face of the trees. They invite the viewer on a journey to discover a world seen from a macroscopic point of view. The magnificently coloured and shaped structures of the works also represent the scars of time. Although its bark on closer inspection appears very brittle and coarse, it radiates a very calming effect.
