

# ALADO

INSPIRES WORK

## DESIGN ALADO

This elegant, contemporary and functional piece of furniture serves as a work table as well as a dining table and can enrich different areas with its aesthetic expression.

Its possibilities for use are extensive, because it can be used excellently both as a single table, and can also be put together in combination with multiple tables to form a single unit. „Alado“ especially embodies these modularities, through the table top towering over the lower construction. It is thus very easy to put tables together. The delicate looking frame is subordinate to this table and blends harmoniously into the materiality of the table top. The drawn-out bevelled edge visible along the side of the table top, gives „Alado“ a certain lightness through the rejuvenation of the material. An innovative and formally hidden system connects the table top of „Alado“ with the frame without making the constructive elements openly visible. By means of this subtle construction, „Alado“ makes an impact both with attractive wooden and glass design.

## DIMENSIONS

height:	750 mm
width:	800-1200 mm
length:	1600-2400 mm

## WOOD OR GLASS

WOOD ABSORBS FRAME SHAPE,  
GLASS PLATE SITS ON FRAME,  
THE BEVELLED LONG EDGE DOES NOT  
ONLY MAKE IT VISUALLY LIGHTER

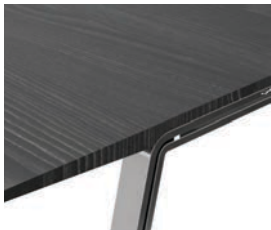

## FOOT END

RADIAL FEET BREAK ANGULAR LINES
