

ARGO

STYLISH SHELVES

DESIGN ARGO

With „Argo“ you organise the objects of everyday life and are in possession of an elegant piece of designer furniture, which fits into every room and ambience. Both sideboards provide ample storage space for various objects. The clear stylistic design language of „loop line“ is formally reflected here in the curved side frame and lends „Argo“ a striking appearance. Both pieces of furniture are equipped with handle-free swing doors with integrated push-pull system, which promises an easy and comfortable handling.

There is a choice between the large version, Argo „L“, which is intended as a free-standing sideboard and has a total of eight compartments, and the small version, Argo „S“ with four compartments, which is ideally designed for a hanging solution
